LOGO DESCRIPTION

The refreshed logo uses a vibrant new color palette to reflect the energy and professionalism that current and aspiring members bring to establishing, growing, and succeeding in their freelance writing businesses.

Three multicolored squares reflect that ASJA members may be journalists, authors, or content marketing writers. These colors can be used to update ASJA publications, marketing materials, and the new website under development. They can also be used to identify targeted content, such as conference tracks for sessions on journalism, books, and content marketing.

The design uses a lower-case word mark for “asja” in a serif font, similar to the previous logo, to provide a connection to our legacy brand recognition. The full organization name is now larger and rendered in a more readable sans-serif font that complements the word mark font.

Together, the graphic elements of the refreshed logo support ASJA’s mission: “To be the voice and career resource for independent, entrepreneurial, professional nonfiction writers.”
FONTS & SPACING

FONTS
The ASJA logo uses font Mencken STD Extra Bold for the wordmark and Atten New Bold for the full organization name.

SAFE SPACE
The height of the ‘O’ at the top of the “j” should be used as the size of the safe space all around the logo.
COLORS

These colors have been established as the color identity of ASJA. These colors can be used in combination with other colors to allow for the appropriate creative expression of the brand.

Each of the three main primary colors can be used individually to focus on a specific segment of ASJA.

**BLUE**: Journalists  
**PINK**: Content Marketers  
**GREEN**: Authors

MINIMUM SIZE

In many cases, the ASJA logo can be used without the full organization name.

When the full organization name is required, the minimum size should be no less than 1.75” wide (approximately 4.5cm) for print and 125px wide for digital.

1.75” / 4.5cm / 125px
Whenever possible, the logo should be shown in full color on a white background. When required, the grayscale versions are outlined below. The squares in the grayscale version are 20%, 40% and 60% black on both light and dark backgrounds.
SOCIAL MEDIA

Below are some examples of the new logo being used within various social media platforms. Use the color logo with full organization name as the main company page cover image and the wordmark only for the profile image.
INCORRECT USE

The logo may not be stretched or altered in any way. It must always be portrayed as either the original full color logo or the grayscale logo. Alternate color palettes or rearranging the order of the colors is not permitted. The three squares are an important part of the logo identity. They should always be shown with the wordmark in the approved position only and not in any other position. They are an integral element of the total design.
